FDA Allows Pfizer and Moderna to Inject Babies and Toddlers with COVID-19 Vaccines as Florida is Only State that Refuses to Participate

Posted By *AdminM* On June 18, 2022 @ 2:57 pm In News | [Comments Disabled](#)

by **Brian Shilhavy**
Editor, Health Impact News

As expected, the FDA rubber stamped Pfizer's and Moderna's request to start injecting babies and toddlers between the ages of 6 months and through 4 years old with toxic and deadly COVID-19 mRNA vaccines.

Eighteen months after authorizing adults to use COVID-19 vaccines from Pfizer and Moderna on an emergency basis, the FDA has done the same for preschoolers who are at least 6 months old.

The endorsement comes two days after an independent FDA advisory committee voted

unanimously—though with some reservations about efficacy—to recommend the shots.

All that remains before young kids start to receive the vaccines is for the CDC to sign off on the two jabs.

Also on Friday, the FDA gave a green light to the Moderna vaccine for use in children aged 6 to 17. For several months, the only vaccine available in the United States for kids in this age group was Pfizer's, as Moderna struggled to gain sanction because of concerns that it increased the risk of heart inflammation. ([Source](#) ^[1].)

The FDA is simply a branch of Big Pharma and this was just a formality, as the Biden Administration had already purchased 10 million doses for this age group weeks ago, and began distributing them to the states in preparation. See:

INFANTICIDE: 10 Million Babies and Toddlers Targeted for Slaughter by Biden Administration with Pfizer and Moderna mRNA Injections ^[2]

What was unexpected, however, was that it was reported that Florida and the DeSantis Administration was the lone State to refuse to participate in this pre-purchase of 10 million doses from the Biden Administration.

[McClatchyDC broke the story](#) ^[3] on Wednesday this week:

Every state has placed an order with the federal government to ensure coronavirus vaccines for young children are delivered as soon as regulators authorize their use — except for one.

Florida missed a Tuesday deadline to request delivery of COVID-19 pediatric vaccines for children under 5, guaranteeing a delay in access for parents across the state, according to two U.S. government sources.

All other 49 states placed pre-orders, which will be delivered in two tranches beginning as early as Monday to thousands of pediatricians' offices, children's hospitals, pharmacies and health centers across the country. Those facilities in Florida will not have access during this time and will remain without supply until Florida places an order.

Jeremy Redfern, press secretary for the Florida Department of Health, confirmed the department "chose not to participate" in the vaccination program because the state health department is not following federal public health recommendations.

"The Florida Department of Health has made it clear to the federal government that states do not need to be involved in the convoluted vaccine distribution process, especially when the federal government has a track record of developing inconsistent and unsustainable COVID-19 policies," Redfern said. ([Source](#) ^[3].)

Was the DeSantis Administration taking this position for political purposes, having seen how Donald Trump infuriated his voter base by continuing to promote the dangerous COVID-19 shots?

Florida Gov. Ron DeSantis (R) is escalating his feud with the White House over the COVID-19 response as he positions himself for a possible presidential campaign in 2024.

DeSantis has been taking heat for his decision not to preorder from the federal government COVID-19 vaccines for infants and young kids.

The White House initially made 10 million vaccines for young children available for states to preorder in anticipation that the shots will get the green light from federal regulators.

Having a small stockpile of doses on hand will mean shots can start being administered shortly after the Centers for Disease Control and Prevention endorses their use.

But Florida was the only state that decided not to place an order.

During a press conference on Thursday, DeSantis said kids have "practically zero risk" of getting seriously ill from COVID-19 and that the state will not be devoting any resources to getting them vaccinated.

"Doctors can get it. Hospitals can get it. But there's not going to be any state programs that are going to be trying to get COVID jabs to infants and toddlers and newborns," DeSantis said to applause from the crowd on hand. "That's not where we're gonna be utilizing our resources." ([Source](#) ^[4].)

The Big Pharma drug pushers reacted in horror, with many doctors in Florida stating that they were not going to be able to order the vaccines if the State did not participate, and a Congressional Panel also took DeSantis to task.

Some reports seem to indicate that Florida did reverse their decision, but apparently they simply clarified that doctors would be able to place orders through the federal system, but that the State Health Department would not be participating.

A congressional panel established to oversee the federal government's coronavirus response sent

a letter to Florida's Republican governor, Ron DeSantis, on Friday, demanding an explanation of his decision not to order or distribute COVID-19 vaccines to children under 5 years old.

The bipartisan House Select Subcommittee on the Coronavirus Crisis is asking for a staff briefing from the DeSantis administration by June 30, unless the Florida governor reverses course.

The DeSantis administration did so less than an hour after the letter was sent, at least partially, allowing Florida healthcare providers such as pediatricians and childrens' hospitals to place orders through the federal system. State health facilities will still not be placing orders for vaccine doses, a Biden administration official said. ([Source](#) ^[5].)

So in the end, babies and toddlers in Florida can still be abused by their parents and doctors who choose to inject them with killer COVID-19 shots, but the DeSantis Administration will not endorse it.

Even if this was simply a political decision, we applaud the Governor and his administration for taking this stance, one that no other Republican Governor has taken.

See the Full List of Tragic Deaths and Injuries Here! [89]

Canadian physician Dr. Andrew Moulden provided clear scientific evidence to prove that every dose of vaccine given to a child or an adult produces harm. The truth that he uncovered was rejected by the conventional medical system and the pharmaceutical industry. Nevertheless, his warning and his message to America remains as a solid legacy of the man who stood up against big pharma and their program to vaccinate every person on the Earth.

Dr. Moulden died unexpectedly in November of 2013 at age 49.

Because of the strong opposition from big pharma concerning Dr. Moulden's research, we became concerned that the name of this brilliant researcher and his life's work had nearly been deleted from the internet. His reputation was being disparaged, and his message of warning and hope was being distorted and buried without a tombstone. This

book summarizes his teaching and is a must-read for everyone who wants to learn the "other-side" of the vaccine debate that the mainstream media routinely censors.

Leaving a lucrative career as a nephrologist (kidney doctor), Dr. Suzanne Humphries is now free to actually help cure people.

In this autobiography she explains why good doctors are constrained within the current corrupt medical system from practicing real, ethical medicine.

One of the sane voices when it comes to examining the science behind modern-day vaccines, no pro-vaccine extremist doctors have ever dared to debate her in public.
